Floorstand Assembly

1. Remove the base from carton, placing the caster base with casters on the floor.
2. Remove (2) columns from carton and remove each from its protective sleeve.
3. Take the columns with both ends tapered and insert the short tapered end into the center hole of the caster base. Insert expansion plug into bottom hole of caster base making sure it also fits inside of column and tighten wing nut (see figure A).
4. Insert the remaining column over the other end of the column already inserted into the caster base (see figure B).
5. Remove the swivel hanger assembly from carton.
6. Insert the swivel hanger assembly into top column (see figure C).
7. Completed floorstand assembly (see figure D).
